At Dr Kopp and Associates we truly care about our patients. Please let us know when there are times we can keep you & your family in our thoughts and prayers.

At Dr. Kopp & Associates we are committed to helping you avoid the unpleasantries that come along with poor oral health. We know the impact hurting or missing teeth can have on your life and our friendly, caring, staff will always be available to help make your dental experience the best you have ever had. Our highly trained specialists will ensure you are getting the best care in the world. Their commitment to you and your dental health will be second to none.

Many of our patients say they love coming to our office and it is the best dental experience they have ever had!

Highlights about our office and staff

We currently use state of the art equipment and sterilization materials.

We have recently added an intra oral camera to better show our patients their dental health. We are in the process of adding voice activated charting. Another way to improve the service we provide to you.

Dr. Kopp has been kind enough to offer printing for the PRIDE group at York High School and for the Russell Brian Gusloff Foundation. He also donates regularly to a variety of non profit organizations. Our staff also donated to the SMILE TRAIN this year in lieu of a gift exchange. This is a non profit organization that repairs cleft palates for children. We will also volunteer at the Northern IL food bank in February.

NEW YEARS
